Colors & Finishes Guide

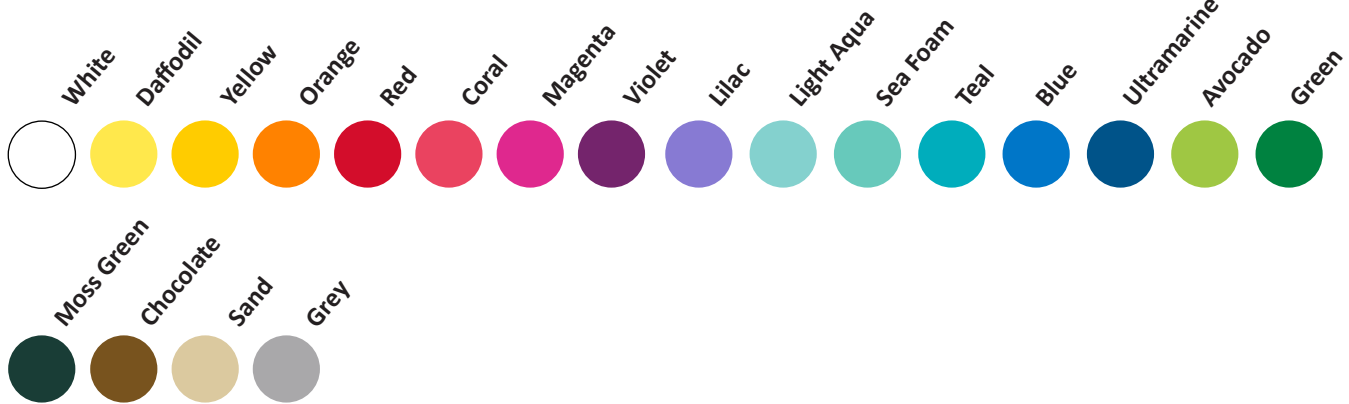

AQUA ARMOR™

- Toughest Coating in the Industry
- Bright Long-lasting Color
- Outstanding Chemical Resistance
- Outstanding Scratch and Abrasion Resistance

Aqua Armor is the best and most durable coating system available in the industry today. It is applied in a five-step carefully controlled process that ensures a durable, fade-resistant finish that is far superior to polyester powder coat systems. Unlike powder coating, Aqua Armor is field repairable to factory standards.

STANDARD COLORS

LUSTER COAT

LusterCoat is a metallic finish incorporating Aqua Armor. Now you can have the metallic look a metal surface without the high maintenance of constant cleaning.

Notes for Selecting Paint Colors:

- Theme painting is not available with metallic colors.
- Smooth finish requests will be subject to an upcharge.
- Non-standard, custom color, and custom paint scheme requests will be subject to an upcharge.
- If a color is non-standard or customer specified, it must be submitted to and approved by the factory.

Disclaimer:

Colors, though mixed in a controlled environment, are subject to variation in tone and hue. Many variables, such as comparisons on digital devices, aging color books and samples, UV exposure, light source, surface type, and finish affect the matching of colors to PANTONE, RAL, and paint manufacturers color books and paint samples. These variables will affect color interpretations.

COLORS & FINISHES GUIDE

ACRYLIC SERIES

AquaWorx Acrylic Series colors bring water to life, allowing light to pass through and cast vibrant reflections that dance across the surface below. Available in standalone features or integrated into multi-level playsets, they add eye-catching, translucent pops of color that elevate the entire aquatic play experience.
